

SECRET

30 October 1969

MEMORANDUM FOR: Professional Advisor, Office of Medical Services
SUBJECT : Centralized Clinical Advisory Activities
REFERENCE : Memorandum for the Record by D/MS, dated
9 October 1969, Subject as above

As suggested during our recent conversation regarding Centralized Clinical Advisory Activities and contents of reference, the following is submitted for information and/or consideration.

1. A review of the duties and responsibilities of the Registrar has been made. There does not appear to be any major areas of overlap by comparing the duties and responsibilities of the Registrar and A/SA/CA/DMS.
2. It is recommended that the Registrar function remain organizationally intact as a Branch of the Support Division with the understanding that the Office of the Professional Advisor will continue to require and obtain a certain amount of support from the Registrar function.
3. It is further recommended that the Office of the Professional Advisor continue to review and study the various clinical-administrative aspects of OMS with an aim to improve present procedures.
